

DSP5200.2HC DIGITAL ACTIVE LOUDSPEAKER THE PERFECT COMPANION

The DSP5200.2HC provides full range playback in a horizontal centre channel package. This ingenious yet elegant design means that the loudspeaker enclosure contains the entire system's electronics, including its amplification.

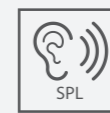

Ideal for mounting on a shelf, under a large-screen TV, or behind an acoustically-transparent projection screen and between other Meridian free standing or in-wall loudspeakers. The DSP5200.2HC features unique Centre elevation adjustment technology which raises the centre image for the perfect movie experience.

THE DSP5200.2HC AT A GLANCE

Advanced, high-efficiency composite dome tweeter.

Outstanding performance – three powerful, built in 75W amplifiers with DSP provide a maximum output level of 116dB at 1m.

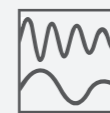

DSP active advantage – self-contained audio system with no amplification equipment needed.

On-board DSP provides thermal and dynamic bass protection – enables high volume use for prolonged periods of time.

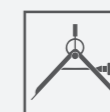

Centre elevation adjustment technology raises the voice to the screen centre, ideal when the HC loudspeaker is positioned below the screen.

Features Meridian's unique Enhanced Bass Alignment (EBA) technology - bass, mid and treble all reach you at the same time, in perfect alignment.

Listener controls including time-compensated balance, listening axis and Enhanced Bass Alignment – enables considerable speaker placement flexibility.

Multiple installation applications in home and commercial environments enabled by Meridian's unique Design and Specification Service.
